

HYBRID SUPPRESSOR CONFIGURATIONS

DT = Direct Thread / QD = Quick Detach / FBS = Fixed Barrel Spacer

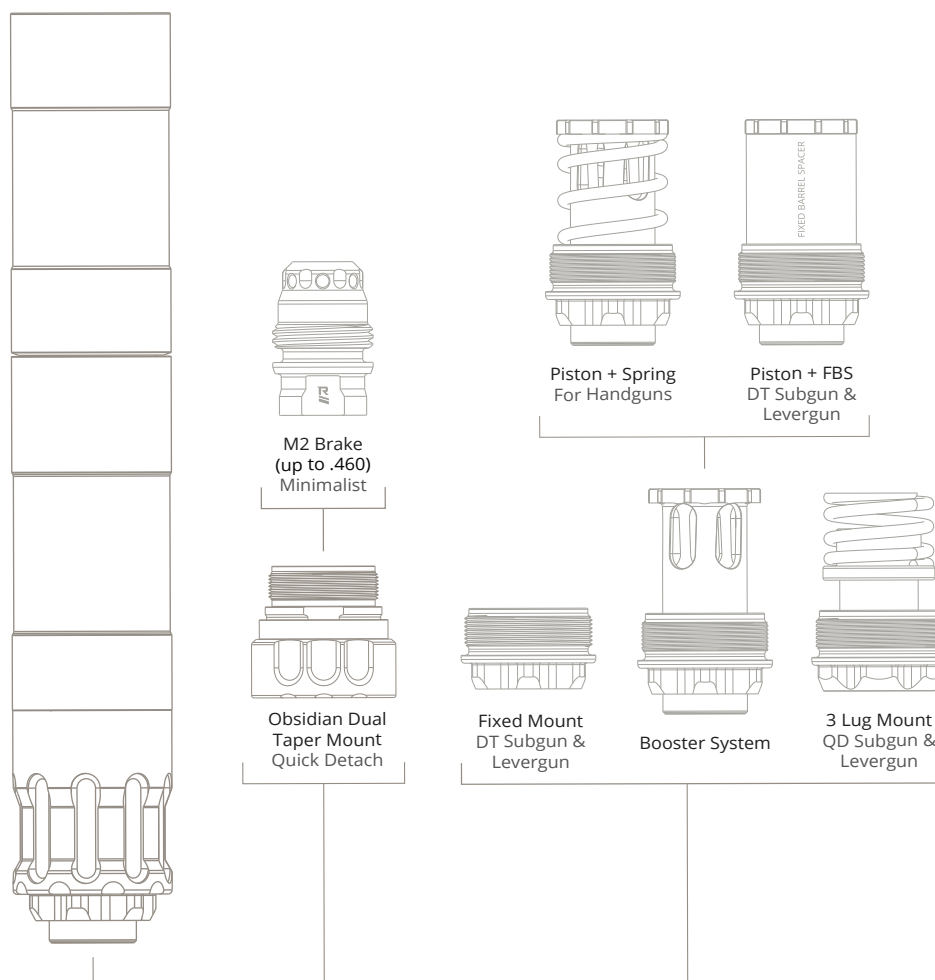

**The M2 Brake has thread pitch options that are compatible with projectiles up to a .460 diameter. Make sure that the suppressor being used is also compatible with that caliber. For instance, the M2 Brake in 5/8x24 can be used with 45-70 for the Obsidian45, but not the Alaskan series.*

PISTOL SUPPRESSOR CONFIGURATIONS

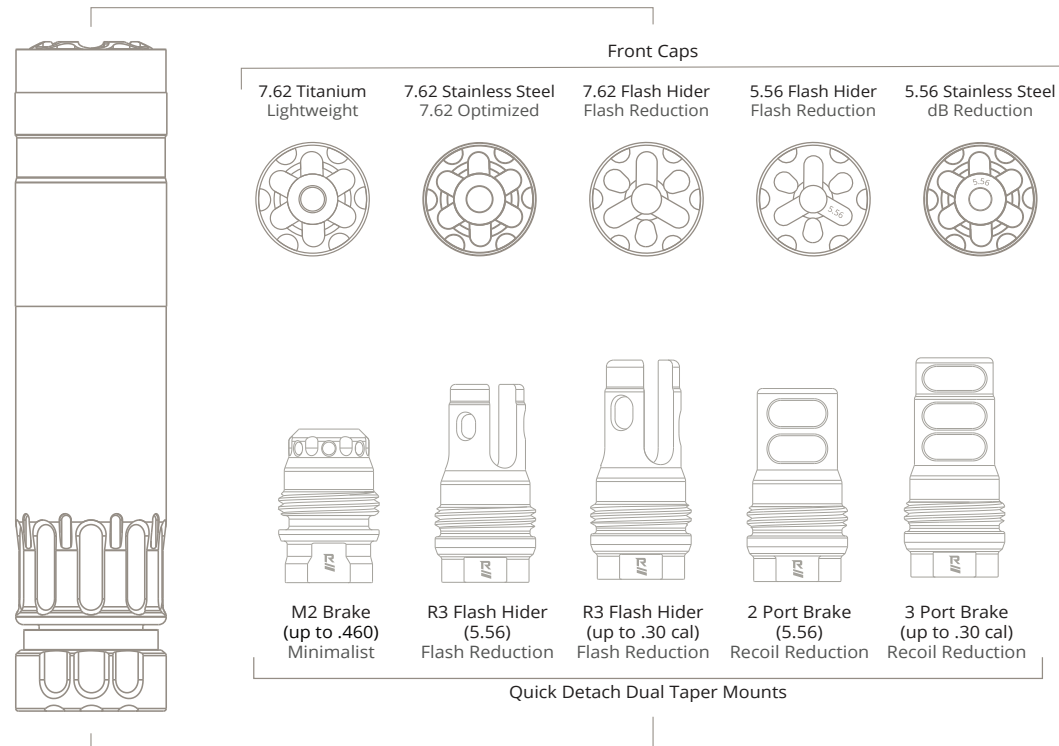

DT = Direct Thread / QD = Quick Detach / FBS = Fixed Barrel Spacer

**The M2 Brake has thread pitch options that are compatible with projectiles up to a .460 diameter. Make sure that the suppressor being used is also compatible with that caliber. For instance, the M2 Brake in 5/8x24 can be used with 45-70 for the Obsidian45, but not the Obsidian9.*

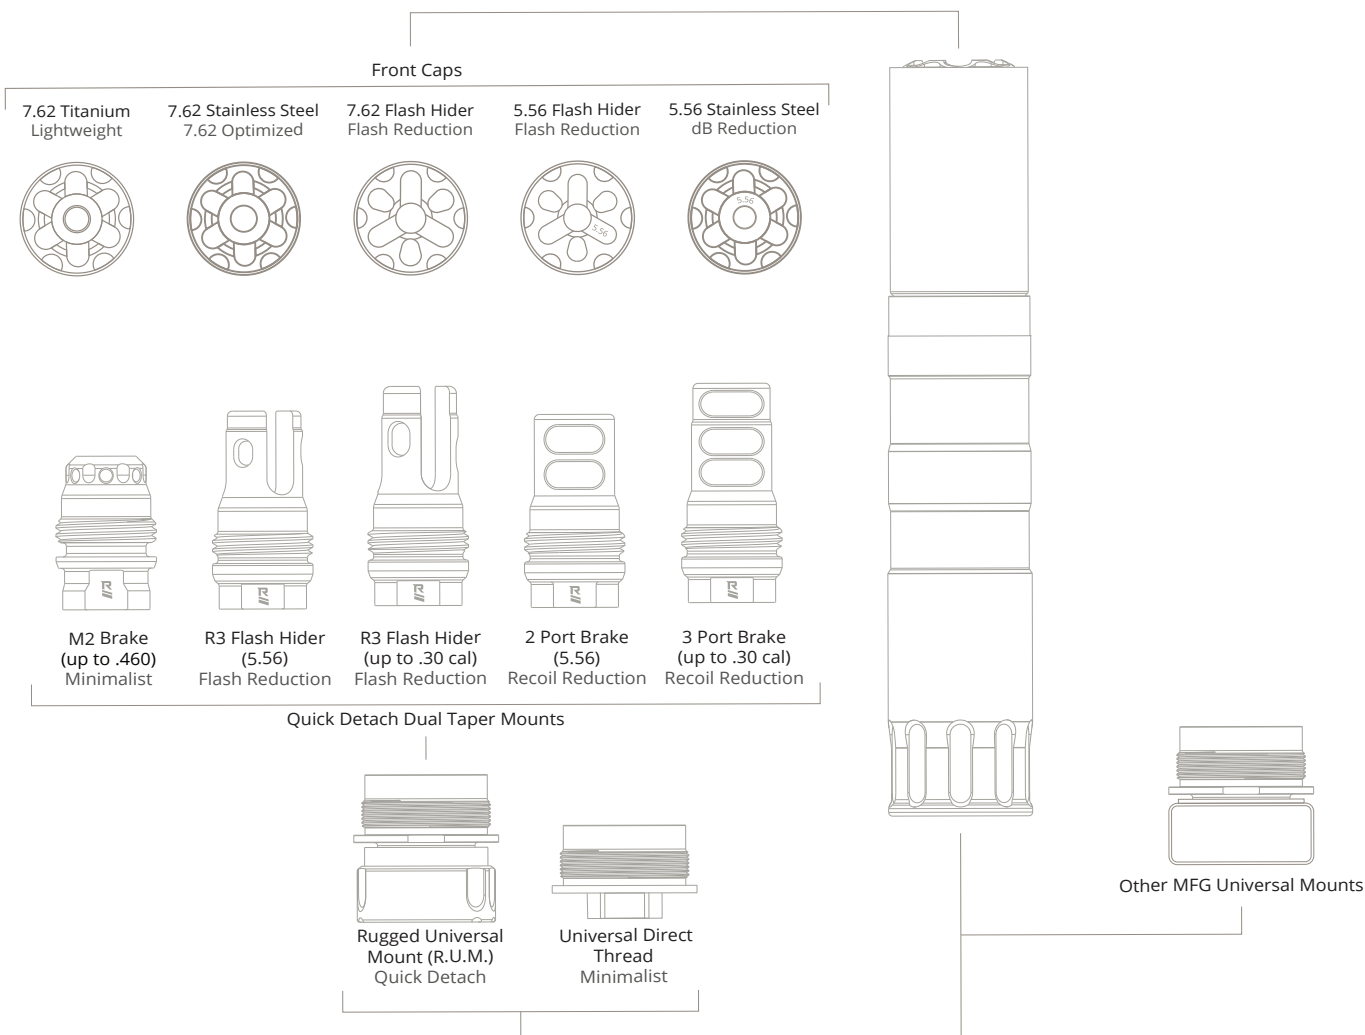

RIFLE SUPPRESSOR CONFIGURATIONS
